EXPERIENCES

Geekworkx Technology

Guwahati, Assam

Worked as an application developer for about half a year building dynamic website. Learned jQuery, PHP and mysql along the process

PROJECTS

Fullstack Web Application | Twitter Clone

Techstack Used: Expressjs, Reactjs, MongoDB, Tanstack query, Tailwindcss, Claudinary api, etc.

Frontend Development | Apple Clone

Built and designed the Apple website landing page. Tech-stack used React, Tailwind CSS for UI/UX design, and Gasp for cool animation. I now have a better understanding of how to design a cool landing page.
