ABOUT ME

Self-taught Full-Stack Developer specializing in MERN stack and NestJS, building scalable, production-grade applications. Currently architecting Credence, a credit referral system backend with enterprise NestJS implementing contract-based service segregation, JWT authentication with token rotation, and robust error handling. Passionate about clean architecture and SOLID principles.

HARD SKILLS

Programming languages: **C, JavaScript, TypeScript, PHP, SQL, HTML5, CSS3**

Technologies & Frameworks: **Node.js, Nestjs, Express, Socket.io, React, React Native, Vue, Bootstrap5, TailwindCSS, Redux, Pinia, GSAP, Three.js**

Databases: **MongoDB, MySql, PostgreSql**

Tools: **Git, ExpoSDK, Postman, Thunderclient, VS Code, Vite, Canva, Linux**

SOFT SKILLS

Cross-Cultural Communication (Fluent in English, Hindi, Assamese, Bengali)
Critical Thinking, Problem-Solving, Adaptability, Active Listening

EXPERIENCE

Application Developer, Geekworkx Technologies, Guwahati, Assam, 2023–2024

Developed 5+ dynamic webpages using PHP, MySQL, and jQuery, improving user engagement by 15%. Collaborated with a team of 3 developers to implement responsive designs, ensuring cross-browser compatibility. Optimized MySQL database queries, reducing page load times by 10% and improving application performance.

MY PROJECTS

Backend Developer | Credence API (NestJS), 2025 (In progress)

Developed enterprise-grade NestJS backend implementing contract-based architecture with SOLID principles, featuring JWT authentication with refresh token rotation and password hashing. Established robust error handling pipeline with global filters, centralized logging, and Joi configuration validation for scalable, maintainable API design.

🔗 <https://github.com/MkdirRaiden/credence.git>

TwitterClone (Full-Stack Web Application), 2024

Built a social media platform using MERN stack, TanstackQuery, TailwindCSS, and Cloudinary API, enabling user authentication, and media uploads.

🔗 <https://twitter-clone-client-gray.vercel.app/>

Lumen – Enlightenment & Truth Discovery App (Cross-Platform Mobile App), 2025 (In progress)

Developed React Native (Expo) app with dynamic theming, animations, and modular content using TypeScript and TailwindCSS. Built modern UI with Lottie animations, video integration, and persistent storage ready for App Store release.

Education & Certifications

IBM Full-Stack Software Developer, Coursera, In Progress, 2025

Completed 5 of 15 modules, focusing on full-stack development with JavaScript, Node.js, and React.

Web Development Fundamentals, IBM SkillsBuild, 2025

Credential : 🔗 <https://tinyurl.com/52sjuamw>

Coursework in Computer Science & Engineering, Tezpur University, Assam, 2017–2019

Completed 50 credits in programming, web technologies, and database systems (degree incomplete).
