ABOUT ME

Self-taught Full-Stack Web Developer specializing in MERN and Nest stacks, with a passion for building scalable, user-focused web applications. Delivered projects like a Twitter clone and Apple website replica, leveraging JavaScript, React, and TailwindCSS. Adept at solving complex problems and adapting to new technologies to drive organizational growth and enhance user experiences.

HARD SKILLS

Programming languages: **C, JavaScript, TypeScript, PHP, SQL, HTML5, CSS3**

Technologies & Frameworks: **Node.js, Nestjs, Express, Socket.io, React, React Native, Vue, Bootstrap5, TailwindCSS, Redux, Pinia, GSAP, Three.js**

Databases: **MongoDB, MySQL, PostgreSQL**

Tools: **Git, ExpoSDK, Postman, Thunderclient, VS Code, Vite, Canva, Linux**

SOFT SKILLS

Cross-Cultural Communication (Fluent in English, Hindi, Assamese, Bengali)

Critical Thinking, Problem-Solving, Adaptability, Active Listening

EXPERIENCE

Application Developer, Geekworkx Technologies, Guwahati, Assam, 2023–2024

Developed 5+ dynamic webpages using PHP, MySQL, and jQuery, improving user engagement by 15%.

Collaborated with a team of 3 developers to implement responsive designs, ensuring cross-browser compatibility.

Optimized MySQL database queries, reducing page load times by 10% and improving application performance.

MY PROJECTS

Backend Developer / Credence API (NestJS), 2025 (In progress)

Implemented robust NestJS configuration management with Joi, enforcing critical env validation and safe pre-bootstrap shutdowns. Built custom bootstrap with global filters, interceptors, and centralized LoggerService for standardized API responses and structured runtime logging.

TwitterClone (Full-Stack Web Application), 2024

Built a social media platform using MERN stack, TanstackQuery, TailwindCSS, and Cloudinary API, enabling user authentication, and media uploads.

Lumen – Enlightenment & Truth Discovery App (Cross-Platform Mobile App), 2025 (In progress)

Developed a React Native (Expo) app focused on critical thinking, science, and spiritual exploration. Implemented a dynamic theme engine with semantic colors, animated transitions, onboarding flows, and modular content using TypeScript, TailwindCSS, Lottie, AsyncStorage, and video integrations. Designed a modern, responsive UI, with plans for Play Store and App Store release.

Education & Certifications

IBM Full-Stack Software Developer, Coursera, In Progress, 2025

Completed 5 of 15 modules, focusing on full-stack development with JavaScript, Node.js, and React.

Web Development Fundamentals, IBM SkillsBuild, 2025

Credential : 🔗 <https://tinyurl.com/52sjumw>

Coursework in Computer Science & Engineering, Tezpur University, Assam, 2017–2019

Completed 50 credits in programming, web technologies, and database systems (degree incomplete).
